Sonic's Adventure Continues

Sonic The Hedgehog 3 takes place on the mysterious Floating Island which holds many special powers. The source of these powers are Chaos Emeralds. In *Sonic The Hedgehog 2*, Sonic and Tails thought that they had destroyed the Death Egg, which was Dr. Robotnik's heavily armored ship. Instead, Dr. Robotnik managed to crash land on the Floating Island. After learning that the island is able to float in the sky by harnessing the power of the emeralds, the Doc decides to steal the emeralds so he can repair his Death Egg ship.

To obtain the emeralds, Dr. Robotnik tricks Knuckles, the guardian of the Floating Island's Chaos Emeralds. He also tells Knuckles that Sonic and Tails are the ones trying to steal the emeralds.

Between battling the new types of Badniks and trying to outsmart Knuckles, Sonic and Tails have their work cut out for them once they arrive on the Floating Island and search for Dr. Robotnik.

You'll soon discover that *Sonic The Hedgehog 3* is packed with Zones which are three times larger than those found in *Sonic The Hedgehog 2*. Each Zone is made up of two Acts, and each Act contains dozens of challenges and obstacles for Sonic and Tails to overcome.

Play As Sonic or Tails

From the main title screen, you can choose to play a one-player game and then select to control Sonic, Tails or Sonic and Tails together. Use the D-Pad and the START button to choose a one-player game and then select the character you want to control.

Sonic's Goals

As Sonic and Tails explore the six exciting Zones, you must help them collect Gold Rings and locate the Chaos Emeralds.

At the start of the adventure, Sonic will have three lives. Additional lives can be earned by activating 1-Up icons, by collecting 100 Gold Rings within a single Act or by grabbing 50 Gold

Rings in the Special Stage. Sonic and Tails must avoid the obstacles in their path and defeat the army of Badniks that roam throughout each Act. You'll discover a Chaos Emerald at the end of each Special Stage.

Meet Knuckles The Echidna

Age: 15 Years Old
Species: Echidna
Favorite Foods: Fruit (Especially Grapes)
Special Abilities: Discovering Hidden Passageways and Using His Knuckles to Dig.

Knuckles was born and raised on The Floating Island and he knows all of its secrets. He's strong, athletic and clever. Because Knuckles knows every hidden passageway on the island, it's easy for him to block Sonic's path, create extra obstacles, set traps and steal Sonic's Gold Rings.

Long ago, an ancient civilization lived on The Floating Island. Before this civilization mysteriously disappeared, it left behind many secrets and mystical powers. Being the only living descendant of this lost civilization, Knuckles has become the guardian of the Chaos Emeralds, which are the source of the island's special floating power.

Dr. Robotnik's Death Egg has lost its ability to fly after crash landing on the island. Having learned that The Chaos Emeralds can make his ship fly again, the Doc decides to steal the emeralds. But first, he must make Knuckles believe that Sonic and Tails are his enemies, and that they're the ones trying to steal the emeralds. Once Knuckles believes Robotnik's lies, he'll do whatever it takes stop Sonic and Tails.

Starting Up The Game Save Feature

The *Sonic The Hedgehog 3* cartridge has a special Game Save Feature that allows you to store game data for up to six different games. Each game you save will be stored in one of the six Game Save Windows.

After selecting one-player, the Game Save Feature screen will appear. To start a game, select a Game Save Window from one of the 6 slots. They are initially labeled "NEW." Press UP or DOWN on the D-Pad to select which character you want to control. Next, press START to begin a game. After your game is over, or if you press RESET, your game will automatically be saved in the slot you selected.

- ◇ To play a game without saving, select the window with the "No Save" option.
- ◇ If you finish the game and collect all of the Chaos Emeralds, you will be able to play in any Zone by pressing UP or DOWN on the D-Pad at the finished Game Save Window slot.

Restarting a Saved Game

Erasing a Saved Game

Use the D-Pad to highlight Dr. Robotnik and press the A or C button. Next, move the cursor to the Game Save Window that you want to delete. Press the A or C button again and select "YES" to confirm your choice.

Sonic Power-Ups

Super Ring - This power-up monitor is worth ten (10) Gold Rings.

Invincibility - No Badniks can harm Sonic when he activates this icon and becomes invincible for a short time. Some moving objects are still harmful, so be careful.

Flame Shield - Protects Sonic and Tails from a fire attack. When this shield is activated, Sonic can perform a mid-air "Fireball Spin Dash" by leaping into the air and pressing the A, B or C button.

Water Shield - Sonic and Tails can breathe underwater and bounce like a ball. Sonic can also defeat most Badniks by bouncing on their heads when he is surrounded by the Water Shield bubble.

Sonic Power-Ups (Continued)

Lightning Shield - When activated, Gold Rings will gravitate towards Sonic or Tails. This shield will also protect Sonic and Tails from electric attacks and energy ball attacks from Badniks. While this shield is active, Sonic can double jump in mid-air (quickly press the A, B or C button twice).

1-Up - This power-up contains Sonic or Tail's picture and is worth one extra life.

Robotnik - Danger! Activating this power-down icon causes the same amount of damage to Sonic or Tails as an attack from a Badnik. Sonic or Tails will either lose their Gold Rings, or without Gold Rings, lose a life.

The Special Stage

Within every Act, you'll discover at least one hidden room containing a giant Gold Ring. When Sonic or Tails leap into the ring, they'll teleport into the Special Stage.

Use the D-Pad to dodge the red energy spheres and grab the blue ones. When the blue spheres transform into Gold Rings, grab them! To make Gold Rings appear, look for square formations of blue spheres, then grab the spheres along the outer edge of the square. All of the blue spheres that make up the square will turn into Gold Rings. White Star Spheres are bumpers which Sonic and Tails bounce off of. Press the A, B or C button to jump up. Once you've collected all of the blue spheres, a Chaos Emerald will appear.

The Bonus Stage's Gumball Machine

Grab extra 1-Ups, bonus power-ups, and Gold Rings by turning the crank of this special Gumball Machine. To find this Bonus Stage, collect 50 or more Gold Rings during a single Act, activate a Starpost and then leap into the tiny stars that appear.

The Bonus Stage's Power-Ups

Barrier Shield - Grab a 'B' gumball and Sonic or Tails will be rewarded with a random type of shield.

Spring Barrier - Each time Sonic or Tails bounce off the catapults below the Gumball Machine, they disappear. Grabbing a 'REP' gumball will replace the catapults. When Sonic or Tails fall past the catapults, they'll automatically exit the Bonus Stage.

Super Ring - These gumballs are worth 10 Gold Rings.

1-Up - Earn an extra life.

Bumper Gumballs - Bounce off of these gumballs.

Clear Gumballs - The joke is on you! Nothing happens if Sonic or Tails grabs a clear gumball in The Bonus Stage.

Time Attack - This is a one-player practice mode that will help you prepare for a two-player competition. Select and practice in any one of the five two-player Zones. Your goal is to move as quickly as possible.

Choose Your Character

In two-player mode, you can control Sonic, Tails or Knuckles, then compete head-to-head against a second player. Using Controller 1 and 2, each player must use the D-Pad to select his/her character at the start of the game.

The Floating Island - Two-Player Mode -

Sonic Super Play Tips

- ◇ Grab Gold Rings. They will provide protection from Badniks and obstacles, help you earn extra lives and enter The Bonus Stage.
- ◇ When Sonic loses the Gold Rings he's holding, quickly help him re-grab as many of them as possible. Earning 100 Gold Rings will earn you one extra life. Having 50 Gold Rings when you activate a Starpost allows Sonic to enter the Bonus Stage.
- ◇ Always be on the lookout for hidden rooms and passageways. Look for different patterns in the walls. Sonic can smash open some solid walls by performing a Spin Dash Attack. You can also use this move to smash open rock formations.
- ◇ Beware of Badniks that shoot energy weapons. Even if you keep your distance from the Badnik, their weapon can reach you and cause you to lose a life. If you must get past a series of Badniks, spend a few moments watching them and learn how they move. Be sure to time your attack perfectly.

More Sonic Super Play Tips

- ◇ Don't forget, in *Sonic The Hedgehog 3*, Tails has the ability to help Sonic. When caught in a difficult situation, use Controller 2 to take control of Tails. Press the A, B or C button twice (on Controller 2) to make Tails fly.
- ◇ Always look for ways to improve your point score. Defeating Badniks, collecting Gold Rings and getting through each Act as quickly as possible (for a Time Bonus) are all excellent ways to boost your score.
- ◇ Prepare yourself to travel underwater in the various Zones. Remember, Sonic can't last too long under water without breathing, so jump into giant air bubbles that rise from the ground. If you wait too long, Sonic will drown (lose a life.) Activating a Water Shield allows Sonic to breath underwater until the shield breaks.
- ◇ Learn to use Sonic's new power-up moves and shields. They will prove to be extremely valuable as you help Sonic and Tails trek across The Floating Island in search of Dr. Robotnik.

Even More Sonic Super Play Tips

- ◇ Use Sonic's Spin Dash Attack to climb up steep hills.
- ◇ When an Act's end level marker appears, leap towards it before it lands and an extra power-up might appear.
- ◇ In the IceCap Zone and throughout the game, avoid having Tails get stuck in passageways or get caught in traps. Have Tails activate Starposts or enter into a Special Stage as quickly as possible.
- ◇ Dr. Robotnik has created many diabolical traps which take advantage of Sonic's ultra-fast speed. Watch out for traps that Sonic cannot escape. If you fall into the wrong trap, you might have to reset the game (by pressing the RESET button) and start again at the beginning of the Zone you were last in. When Sonic is flashing (after being hit) don't let him travel too quickly.
